Caxton FX launches Caxton BulkPay – a new high tech Bulk Payments Platform

Global FX leader launches platform for customers to make automatic payments.

6 September 2018 – **London**. Caxton FX today announces that it has launched a new service called **Caxton BulkPay** to handle complex global payments for business customers.

Any company sending regular batched payments on a regular basis knows the time and cost involved. That's why Caxton's cloud based Global Payments Platform allows its customers to make thousands of payments with ***a single file upload***.

What is Caxton BulkPay?

- A reliable, secure way to send multiple payments in one batch
- Convenient way to send A/P, payroll, royalties and pensions
- Streamlined into one file to be sent globally

Caxton FX continues its innovation story – which started in 2002 by entrepreneur and CEO, Rupert Lee-Browne.

Caxton FX CCO, Jane-Emma Peerless explains 'Clients have approached Caxton asking if we could develop a seamless, secure and inexpensive solution to sending batch payments overseas. FDs are noticing a sizeable dent in their bottom line using traditional methods. We have responded with an easy to use self-serve solution, removing an admin headache and saving money at the same time'.

How does it work?

One simple call to our account managers will set up a customer account in minutes. Once registered, clients can manage their payments online with a click of the mouse. However, the Caxton team are always on hand to assist with any questions.

When will it be live?

The system is now open to Caxton's existing business multi-currency account holders or new customers who will benefit. Simply call our team now on 0207 042 7629 or visit our website, <https://www.caxtonfx.com/business/international-payments/bulk-payments/>

About Caxton

Caxton is a market leading international payments company. Based in London, we've been pioneers in currency services since its entrepreneurial start up in 2002. We were the first to launch currency cards with bank-beating rates, and constantly innovate our products to service our 750,000 private and business customers. Last year, we successfully processed 7.3 million transactions, while our annual turnover reached €1 billion.

We provide businesses with international payments solutions – acting as a currency concierge with bespoke solutions – from spot contracts to hedging strategies.

Our customers trust what we do and recommend us to others. We have a Net Promoter Score of 78%. The business was recently awarded a 5-star rating by MoneyFacts for its customer focus, and holds a 9.2/10 score on Trustpilot, an independent customer reviews site.
